Dear Fellow Montanans:

In 1983, we experienced a disturbing increase in traffic fatalities across our state. Part of the reason for this increase is the fact that Montanans are driving more than ever before, and our state's population is rising.

Even so, we have reason to be encouraged: Despite the increase in fatalities, 1983 was a year of actual reductions in total accidents and personal injury. We reduced the incidence of drinking drivers' involvement in traffic deaths, thereby reducing the total of alcohol-related deaths. And finally, we lowered the number of young people who died in alcohol-related accidents.

Our successes in 1983 were attributable, in part, to improved training and management of the Montana Highway Patrol. Your Patrol officers have made a great effort to perform at peak efficiency, despite their small number and the scarcity of resources available to them. Other groups, both statewide and local, have worked hard to alert the public to the dangers of drunk driving, and have supported our Report-A-Drunk-Driver Program, with enthusiasm.

The key ingredient to our continued success, however, is you, the driver on Montana's roads and highways. With your help and cooperation, we will maintain our efforts against drunk drivers, and we will show a reduction in the total of traffic deaths next year.

With best wishes, I am

Very truly yours,

Mike Greely

MIKE GREELY
Attorney General

Honorable Mike Greely
Attorney General
The Justice Center
215 North Sanders
Helena, Montana 59620

Dear Sir:

To you and the citizens of Montana, I respectfully submit this annual report of accident analysis.

1983 noted a decrease in the involvement of teenage drivers in alcohol-related fatalities. This is due in great part to the increased awareness among the Montana high schools of the incidence of students drinking and driving. The Students Against Drunk Driving Program, which you strongly supported, has had a marked effect on saving Montana's best resource, its young people.

Officer training in the area of D.U.I. apprehensions is proving to be of great benefit. Through this training, better enforcement and increased D.U.I. arrests have been accomplished. This accounts in great part for the decreased incidence of alcohol-related fatalities in this 1983 report.

The improved communications system has been an effective tool in combating highway accidents and fatalities by improving communication between officers, hospitals, ambulances and other emergency vehicles. The Legislature is to be commended for its foresight and fortitude in funding this life-saving element of highway safety.

The increased use of Montana's highways, by residents and tourists alike, plus the increasing population of Montana, continue to tax our officers. In the near future we must increase the number of officers to keep up with the accelerating demands for their services.

The Highway Patrol Division will continue to strive to meet the increasing demands placed upon us and will continue to give our very best service to the citizens of Montana. Your guidance as Attorney General and support for highway safety is appreciated by every officer of the Montana Highway Patrol.

Sincerely,

R.W. Landon
